

2019 Ginetta Junior Summer Camp

Introduction

The Ginetta Junior Summer Camp will give ambitious, young racing drivers a valuable insight into Junior motorsport. The two-day event is designed to increase the drivers' overall levels of understanding of the sport, with a holistic approach to training both on and off track.

Created by Ginetta Factory Drivers Charlie Robertson and Mike Simpson, the Ginetta Junior Summer Camp is designed with a focus on analysis and improvement, whilst making each driver a more rounded and marketable individual.

What is included?

- Use of a Ginetta G40 race car
- V-Box analysis and guidance
- Expert driver tuition
- Professional driver analysis
- Media and Fitness training sessions

The Ginetta G40

Ginetta's G40 Junior car offers a perfect introduction to sports car racing for karting graduates and motorsport newcomers. It is the ideal first step on the motorsport ladder for young drivers and has become one of the most well-known models on the British Touring Car Championship support package. For more information regarding the G40 Junior car please visit the following link: <https://www.ginetta.com/g40-junior>

Driving and V-Box analysis

Ambitious racers will enjoy one-to-one tuition behind the wheel of a Ginetta G40 Junior car throughout both days, with each session tailored to their own individual needs. On-track driving will be complemented by V-Box data sessions, where drivers can compare their data to that of their professional driver coach.

The V-Box measures speed, lap times, braking distance and other vital elements of driver performance. Data will be compared against that of our professional driver, enabling students to benchmark their own performance against theirs, whilst also being able to identify areas for improvement. This process should give drivers the best possible opportunity to improve their circuit driving.

Fitness training

To be a successful racing driver at any level, fitness is of huge importance. Ginetta's Personal Trainer, Richard Chessman will be on hand to assess each drivers' current fitness levels and provide a tailored fitness plan to prepare for the rigours of professional motorsport. During the Ginetta fitness session, drivers will be able to measure their endurance capabilities through high intensity interval training.

Media training

The ability to present yourself professionally to the media is an essential skill at all levels of motorsport. A media training session will be provided for all drivers and will cover everything from how to approach sponsors to the best ways to present yourself in a live television interview. There will also be training on the importance of social media in the changing media landscape.

Cost and Eligibility

To take part in Ginetta's Junior Summer Camp, drivers must be aged between 13 and 17. Previous car racing experience is not necessary as all activities have been designed to suit everyone from first time drivers to karting graduates. The cost of the Ginetta Junior Summer Camp is £2,500 inc VAT and includes all tuition, as well as light refreshments throughout.

The Venue

Ginetta's own test track, Blyton Park is a fast, challenging but ultimately forgiving circuit. It offers an unrivalled opportunity for drivers of all levels to practice car control in a safe and friendly environment.

Frequently Asked Questions

- **What is the age limit?**

Drivers should be aged between 13 and 17 at the time of the event.

- **Do I need to have a race licence to take part in the Summer Camp?**

No. There are no specific licence requirements to take part in the Summer Camp.

- **What do I need to wear?**

Your arms and legs must be fully covered whenever you are on circuit. If you don't have a race suit we recommend that you wear comfortable clothing, such as jeans, a sweatshirt and lightweight shoes, ideally with thin soles.

All drivers must wear a helmet. If you don't have your own, Ginetta can provide one, just let us know in advance. You are more than welcome to bring your own race overalls and driving gloves.

- **Do I need to have any specific experience to take part?**

No. Juniors are not required to have any specific experience in any form of racing. It's helpful if participants have experience of driving a manual car and have mastered the art of 'clutch control' prior to arriving.

- **Are individuals from outside the UK able to participate?**

Yes. There are no limitations on participants entering from outside of the UK.

- **Can friends and family come to watch?**

Of course. We have plenty of space for spectators to watch and to relax, plus drivers will need a parent / guardian on site at all times.

- **Where should we stay?**

As this is a two-day event, you may need to book overnight accommodation. You will find a number of recommendations on Blyton Park's 'Where to Stay?' page here -
